

**REMARKS/ARGUMENTS**

The above-identified patent application has been amended and reconsideration and reexamination are hereby requested.

Claim 1 has been cancelled.

Claim 2-10 point out that the common shared resource section includes a shared computer code used by the plurality of directors and that each one of the directors accesses the shared code stored in the common shared resource in the shared resource section. It is respectfully submitted that the system described in DeKoning et al., USP 6754853, does not have a shared resource section wherein computer code used by the plurality of directors and that each one of the directors accesses the shared code stored in the common shared resource. With DeKoning et al., one director does not go to the same shared place (i.e., section) that another one of the directors goes to for the same code nor do each one of the directors access the shared code stored in the common shared resource in the shared resource section.

In the event a petition for extension of time is required by this paper and not otherwise provided, such petition is hereby made and authorization is provided herewith to charge deposit account No. 05-0889 for the cost of such extension.

In the event any additional fee is required, please charge such amount to Patent and Trademark Office Deposit Account No. 05-0889.

Respectfully submitted,
